

Scorecards

The scorecards for the Microsoft Dynamics™ AX environment are provided below. These scorecards are a composite view based on the data collected and the answers given throughout the course of interviews and surveys to illustrate the possibility of encountering issues in a specific area. The scorecards show the state of the system with respect to health (current issues) and risk (potential for future issues).

Issue Severity Levels
Critical
High
Medium
Low
No Issues

Scorecards	Current Health Issues	Future Risk Issues
Configuration		
Application	High	No Issues
AOS Server	High	Medium
SQL Server	Critical	Medium
Database	High	No Issues
Operations		
Operating Environment	No Issues	High
Monitoring & Maintenance	High	No Issues
Performance		
Server Utilization Disk Performance	High	No Issues
